## Cluster 1 Health

The role of environmental pollution in non-communicable diseases: air, noise and light and hazardous waste pollution

### [HORIZON-HLTH-2024-ENVHLTH-02-06-two-stage](#)

Deadlines (two stage):

19 September 2023 17:00:00 Brussels time

11 April 2024 17:00:00 Brussels time

The applicants should focus on at least one of the following three aspects:

- Air pollution, especially in the urban environment
- Noise pollution and light pollution impact on human health
- Pollution from hazardous waste in heavily contaminated environments and adverse health outcomes.

Budget: Up to 7,5 mill

Research and Innovation action (Lump sum)

### Infoday and brokerage event

The poster features the European Union flag and the text 'EUROPEAN UNION' in the top left. The central focus is the large 3D text 'HORIZON EUROPE'. To the right, it says 'INFO DAYS', 'CLUSTER 1', and 'HEALTH' in large, bold letters. Below this, the date and time are listed: '19 JAN 2023 | 9:00 CET'. A hashtag '#HorizonEU' is shown in an orange box with a person rappelling. The bottom of the poster includes the text 'THE EU RESEARCH & INNOVATION PROGRAMME 2021 – 2027'. The background is a light blue to green gradient with various illustrations of people in lab coats, a person in a wheelchair, and a family playing soccer.

## Νέα στοιχεία στο Πρόγραμμα Εργασίας 2023-2024 – Lump Sum

# Why do we use lump sum funding?

### Reducing the financial error rate

- Following the ECA annual reports 2019 and 2020, there is wide agreement that the error rate in the R&I Framework Programmes must be reduced
- Lump sums are a key measure to achieve this in Horizon Europe

### Significant simplification potential

- Funding based on reimbursement of real costs remains complex and error-prone. Little scope for further simplification
- Lump sums remove the obligation to report actual costs and resources
- Easier to use for beneficiaries with limited experience

### Focus on content

- Focus less on financial management and more on content

## Νέα στοιχεία στο Πρόγραμμα Εργασίας 2023-2024 – Blind evaluations

### Blind evaluation (in 1<sup>st</sup> stage)

- There is no evidence that the current proposal evaluation system is systematically biased.
- There are understandable concerns that evaluation experts may be swayed – perhaps unconsciously – in favour of proposals from well-known organisations in countries with better performing R&I systems.
- ‘Blind’ evaluation is a way to remove any real or perceived effect of such reputational bias.
- Experts evaluate without knowing the identity of participants.
- The work programme will include an additional admissibility criterion: applicants can not be disclosed in the narrative part of the proposal.

## EU Soil Mission

Discovering the subsoil

[HORIZON-MISS-2023-SOIL-01-01](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- Improved access for land managers and public authorities to data and knowledge on the spatial variations of the chemical, physical and biological conditions and dynamics in subsoils. This should support the development of sustainable soil management practices as well as financial and policy incentives.
- Accelerated deployment of sustainable management practices for protecting and restoring subsoils in agricultural, forest and other types of soils, and increasing relevant soil-dependent ecosystem services such as the provision of food and fibre or habitats for soil biodiversity.
- Improved understanding of the role of the subsoil in climate change adaptation and mitigation, e.g. regarding carbon and water storage.

Budget: up to 6 million

Research and Innovation Action

## EU Soil Mission

Soil pollution processes – modelling and inclusion in advanced digital decision-support tools

[HORIZON-MISS-2023-SOIL-01-02](#)

Deadline: 20 September 2023

Projects should contribute to:

- Enhanced access to soil relevant knowledge and data for a wide range of stakeholders that can inform practices and policies for reduced levels of pollution, enhanced take up of sustainable soil management practices and restoration of polluted soils, especially those with high risk to human health and environmental wellbeing.

Budget up to 7 million

Research and Innovation Action

## EU Soil Mission

Onsite digital technologies to monitor nutrients and chemical or biological stressors in soil and plants with relevance for food safety and nutrition

[HORIZON-MISS-2023-SOIL-01-03](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- Increased scale-up, availability and use of onsite digital tools (e.g., light-based technologies, remote sensing, Artificial Intelligence (AI)) to monitor nutrients, micro-nutrients, chemical and biological stressors in soil, plants and subsequently in food in various stages of the production process (from farm to processing stages).
- Improved capacities for food safety risk mitigation and management throughout the various food production stages.

Budget: up to 6 million  
Innovation Action

## EU Soil Mission

Innovations to prevent and combat desertification

[HORIZON-MISS-2023-SOIL-01-04](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- The socio-economic and climatic drivers [...] are clearly understood, accurately and reliably measured This knowledge is widely shared among relevant actors from various sectors [...]
- The economic viability and environmental effectiveness of solutions for the prevention of desertification and for the restoration of degraded land, [...] is demonstrated in the different local or regional contexts.

Budget: up to 7 million  
Innovation Actions

## EU Soil Mission

Soil-friendly practices in horticulture, including alternative growing media

[HORIZON-MISS-2023-SOIL-01-05](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- Reduced carbon and overall environmental footprint of the horticultural sector and more sustainable production systems, reducing negative impacts on soil health throughout the value chain.
- Novel products (e.g. alternative potting and soil-improving materials), production processes and management options for soil management are developed and tested and show improved environmental, social, health and safety performance, as demonstrated through improved testing and validation methods throughout the entire life cycle.

Budget: up to 6,5 million

Innovation Actions

## EU Soil Mission

Soils in spatial planning

[HORIZON-MISS-2023-SOIL-01-06](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- The value of soil functions and ecosystem services provided by soils is more systematically recognised and integrated in spatial planning and land use decisions in urban and rural areas, due to increased awareness of spatial planning authorities on the importance of soil functions and soil health overall. Therefore, the various societal demands for land are more easily reconciled.

Budget: up to 7 million

Research Innovation Action

## EU Soil Mission

Co-creating solutions for soil health in Living Labs

[HORIZON-MISS-2023-SOIL-01-08](#)

Deadline: 20 September 2023

Project results should contribute to all of the following outcomes:

- Living labs across Europe are fully operational and have established themselves as places for co-creation and testing of solutions for soil health in rural and urban areas.
- Increased capacities for participatory, interdisciplinary and transdisciplinary R&I approaches, allowing for effective cooperation between research, practice and policy to tackle soil health challenges.
- Practice oriented knowledge and tools are more easily available to land managers and contribute to an enhanced uptake of solutions for soil health and related ecosystem services.
- Strengthened collaborations between actors across territories and sectors and increased consideration of effective solutions for soil health in regions where the selected living labs are operating.
- Policy makers in the EU and Associated Countries are more aware of local needs with regard to soil health and can use this knowledge to design more effective policies.

Budget: up to 12 million

Production of safe, sustainable, and efficient bio-based fertilisers to improve soil health and quality

[HORIZON-JU-CBE-2023-IA-02](#)

Deadline: 20 September 2023

Project results should contribute to the following expected outcomes:

- Enhanced availability of affordable and sustainable fertiliser in the EU
- Safe, precise applicable and efficient bio-based fertilisers to support the transition towards a circular economy (including fertiliser industry) and agricultural production
- Replacement of conventional fossil and mineral fertilisers with bio-based alternatives, while closing nutrient cycles and creating new value chains on a regional level

Phyto-management; curing soil with industrial crops, utilising contaminated and saline land for industrial crop production

[HORIZON-JU-CBE-2023-R-01](#)

Deadline: 20 September 2023

Project results should contribute to the following expected outcomes:

- Increased availability of domestic raw materials for use in non-food high-value applications in the bio-based industries.
- Enhanced knowledge on sustainable options to extract, recover, added value compounds as well as on the processing of the biomass into high value products.
- Development of guidelines, recommendations, thresholds, and restrictions related to the utilised biomass in form of specific case studies.

Budget: up to 5 million

## European Innovation Council - EIC

### EIC main instruments and characteristics

#### Pathfinder

- **Early stage research** on breakthrough technologies
- Grants up to €3/4 million
- Successor of FET (Open & Proactive)

#### Transition

- **Technology maturation** from proof of concept to validation
- **Business & market readiness**
- Grants up to €2.5 million

#### Accelerator

- **Development & scale up** of deep-tech/ disruptive innovations by startups/ SMEs
- Blended finance (grants up to €2.5 million; equity investment up to €15 million)
- Successor of SME instrument

- Mission to **identify, develop and deploy high risk innovations** of all kinds
- Focus on **breakthrough, market-creating, deep-tech**
- Steered by **EIC Board** of leading innovators (entrepreneurs, investors, researchers, ecosystem)
- **Business Acceleration Services** (coaches/ mentors, corporates, investors, ecosystem)
- **Pro-active management** (roadmaps, reviews, re-orientations, etc) with EIC Programme Managers
- **Follow up funding for results from Horizon** (ERC, EIT, collaborative) & national programmes

EIC Pathfinder Challenge - Precision nutrition

[HORIZON-EIC-2023-PATHFINDERCHALLENGES-01-03](#)

Opening date: 20 June | Deadline: 18 October 2023

The goal of this Challenge is to investigate and provide scientific evidence of the role of diet in FrHCs and NCDs. The specific objectives of this Challenge are:

- Investigate causal relationships among diet, microbiome and glycans, with potential impact on personalising human diet.
- Identify food ingredients, food technology processes, additives and dietary patterns that have negative effects on human health and, aging.
- Identify food ingredients, food technology processes and additives that have a beneficial effect on human health, and aging.
- Develop recommendations for the reformulation of new food products and processes with no- or fewer additives

Budget: up to 4 million euros

The widening eligibility criteria for coordinators

### **Widening Member States that qualify as coordinators:**

Bulgaria, Croatia, Cyprus, Czechia, Estonia, Greece, Hungary, Latvia, Lithuania, Malta, Poland, Portugal, Romania, Slovakia, Slovenia

### **Associated countries to Horizon Europe with similar R&I characteristics:**

Albania, Bosnia & Herzegovina, Kosovo, Montenegro, North Macedonia, Serbia, Turkey, Armenia, Georgia, Moldova, Morocco, Tunisia, Ukraine, Faroe Islands

### **Outermost regions of Spain, Portugal, France**

## Widening Participation & Spreading Excellence (Destination 1-2)

### Twinning

### [HORIZON-WIDERA-2023-ACCESS-02](#)

**Type of action:** Coordination and Support Action (non-research)

**Opening:** 25 April 2023

**Deadline:** 28 September 2023

**Budget per proposal:** 0.8 – 1.5 mio euro

**Integration of a research component:** 30% of the total grant

**Number of projects to be funded:** 100 (**Sub-topic Green Deal:** 20 projects to be funded

| **Sub-topic Twinning Bottom-Up:** 80 projects to be funded)

### **Eligibility criteria**

**Coordinator:** Research institutions from Widening countries

**Partners:** top-class leading counterparts at European Union level by linking it with at least two research institutions from two different Member States or Associated Countries.

## Widening Participation & Spreading Excellence (Destination 1-2)

### Twinning

**Main aim:** Enhance networking **for excellence** between the research institutions (widening + EU internationally leading) through activities of knowledge transfer and exchange of best practice

#### Overarching objectives

- ✓ Stimulate **scientific excellence and innovation capacity** of coordinator
- ✓ Strengthen Research Management and Administration skills
- ✓ Strategic networking among the partners of the consortium
- ✓ Raised reputation, research profile and attractiveness of the coordinating institution

#### Main activities

**Soft activities:** short-term staff exchanges, expert visits, on-site/virtual training, workshops, conference attendance, joint summer schools, outreach activities preferably with stakeholders of the quadruple helix

**Type of action:** Coordination and Support Action (non-research)

**Opening:** 28 March 2023 | **Deadline:** 28 September 2023

**Budget per proposal:** 0.5-1.2 mio euro

**Number of projects to be funded:** 20

**Sub-topic 1 :** Upstream synergies: human resources development, internationalisation

**Sub-topic 2:** Downstream synergies: Valorisation and upscaling of research results towards marketable solutions

### **Eligibility criteria**

**Coordinator:** Legal entities from Widening countries

**Budget allocation:** at least 70% to widening partners

## Widening Participation & Spreading Excellence (Destination 1-2)

### Pathway to synergies

**Main aim:** Promote synergies between EU framework programmes and funds coming from nationally managed funds stemming from the Cohesion policy, notably the European Structural funds, INTERREG, RRF

**a) Upward synergies:** Prepare networks of single beneficiaries of funding programmes (ERDF, INTERREG, RRF) for successful participation in Horizon Europe.

**Eligibility:** At least three different public or private research entities from at least two widening countries

**b) Downward synergies:** Projects coming from EU framework programmes with concrete results to seek further funding opportunities through Cohesion policy programmes.

**Eligibility:** Members of a consortium of **one or two completed** or ongoing projects (in the same domain)

- Identification of three focus regions to host the pilots/demonstration activities

## Widening Participation & Spreading Excellence (Destination 1-2)

### HOP-ON Facility

**Eligibility:** Open to legal entities from Widening countries

**Type of action:** Research and Innovation Action

**Opening:** 10 January 2023 | **Deadline:** 28 September 2023, 26 September 2024

**Budget per proposal:** 0.10 – 0.60 mio euro | **Coordinator's fee:** 10% proposal budget

**Consent of the consortium implementing the action is needed. This is a voluntary scheme!**

**Eligible programme areas in Horizon Europe:** Pillar II & EIC Pathfinder

**Number of projects to be funded:** 160

**Extent of proposal:** 8-page proposal submitted by the coordinator at **Funding & Tenders portal**

**List of eligible projects:** <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/horizon/hop-on>

**Coordinator:** Legal entities from Widening countries

**Consortium:** at least three independent legal entities established in three different EU Member States or Associated Countries, at least two of which each established in a different Widening Country

**Composition:** participants from both academic and non-academic sectors. May include umbrella organisations or national/regional associations

## Strengthening the European Research Area (Destination 3)

### ERA Talents

**Cost categories:** The grant covers expenses related to the ERA Talents participating organisations and individual talents hosted/seconded (such as administrative costs, recruitment costs, training costs, travel and subsistence costs and salaries for seconded staff, and costs associated with dissemination & communication and knowledge valorisation).

**Scope:** Boost interoperability of careers and employability of research and innovation talents across sectors, with a centre of gravity in Widening countries.

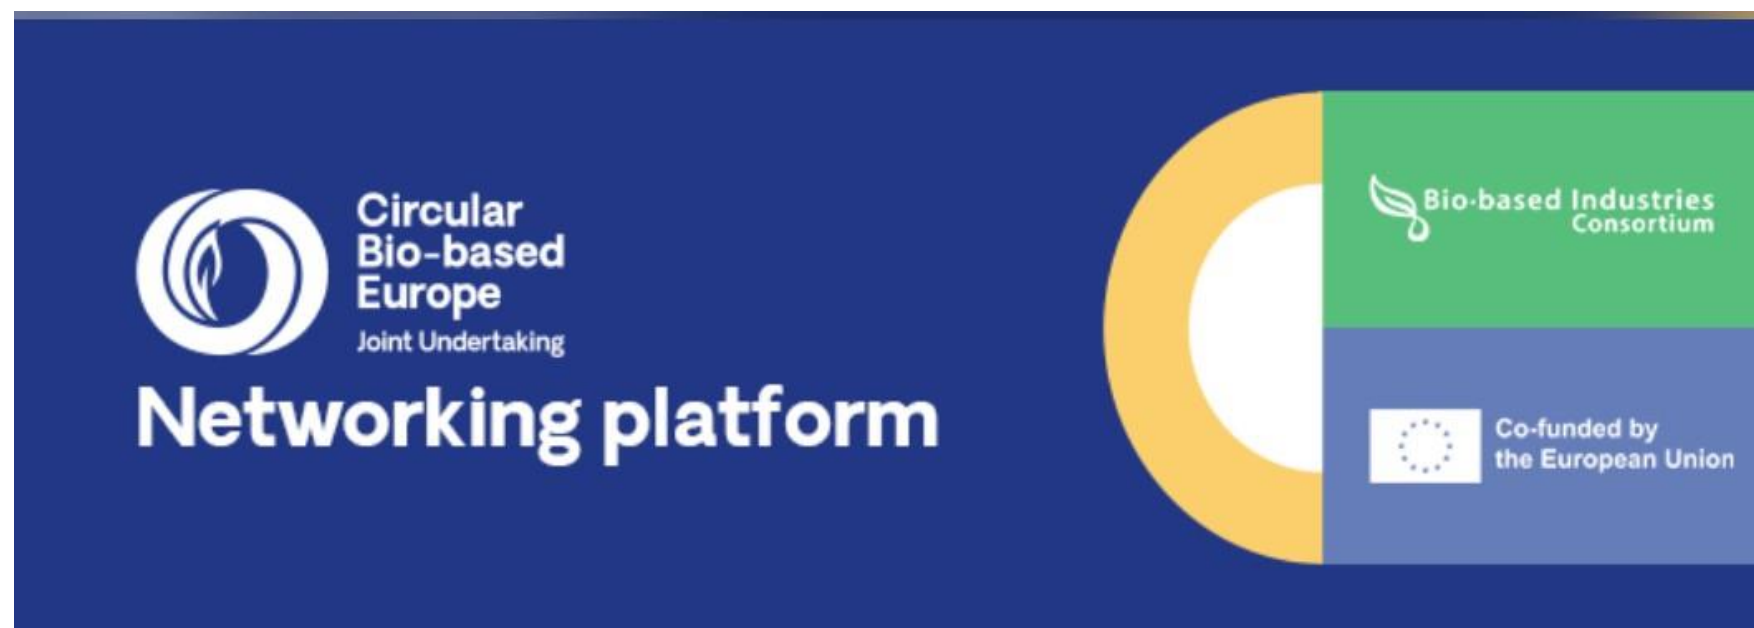

### Activities

- ✓ Intersectoral mobility (secondments)
- ✓ Strengthening academia/non-academia cooperation
- ✓ Improve life-long learning
- ✓ Boosting researcher entrepreneurship
